Re: Appl. # 10/775,589 , Filed 02/09/2004 , Attorney Docket No. ONO.T-01 , CONFIRMATION No.1738

Herein, please find patent application revisions for the above, as specified by "Notice of Non-Compliant Amendment (37 CFR 1.121).

Please note that point 3. Amendments to the drawings: There were no amendments made to the drawings submitted on initial application, nor subsequent revision of October 2005.

Otherwise, for an applicant not versed fully in the legal language of patent submission, the requirements from one set of instructions for filing to the other information I have received have left me confused, and conflicted. I have understood that the "form" has been produced incorrectly...content notwithstanding. Therefore, I have made every effort to interpret and correct the patent submission for your consideration. The form noted above "Notice of Non-Compliant Amendment" does not state as to where to mail the corrections, so I am mailing to the attention of both examiners involved.

I apologize for the added workload dealing with a non-patent professional creates. I hope this will bring closure to our patent quest...a positive closure, I might add.

Regards,
